Some people are obeying the orders of the board of health and cleaning up their premises. Some are not. We expect by next week to be able to say that so and so has been up before the police court.

In conversation with some of the electric line officials a few days ago we were led to believe that work will begin on the road within the next few weeks. One official told us the road would be completed within 45 days from the time work was commenced.

Gov. Hoch says he will close all the joints in Kansas. If he does, he will do something no other governor has done. We shall see what we shall see. Gov. Morrill tried that same thing, and was one-termer. Will Hoch make the same kind of a record.

My sales are so heavy that I am compelled to get in new invoices of hats and millinery goods every few days. I suppose this is caused by my reasonable prices and the fact that I keep up-to-date on all the new styles and creations. MRS. IDA SMITH.

Most all the parties notified by the board of health to clean up their premises have complied. A few have not. Those few should bear in mind that the city council is going to back up the board of health in the "clean-up" matter. And it is right the council should do so.

The Baxter Springs News has commenced a crusade against the owners of vacant lots who refuse to sell for a reasonable price. From the number of these lots that appear every year on the "delinquent tax list" of this county, it would seem the position of the News is well taken. They should sell them to some one even if they only agree to keep the taxes paid.—Modern Light.

Mrs. W. H. Hornor and Mrs. T. C. Moore gave a dancing and card party at their delightful home on East Sheridan street last Friday evening. The evening was delightfully spent

The action taken by the city council Tuesday night in agreeing to back up the board of health in its efforts to clean up the town is very gratifying to the News and all lovers of a nice clean town. A clean town is a good place to live in, and a clean town is always inviting to people who are hunting a place to live and make their homes. The council is very harmonious in its actions, not only along this line, but along others we might mention, and we are truly glad of it. No good citizen should do or say anything which might stir up strife or discord among the city officials, who are, we believe, as good as any the city ever had. A harmonious city administration is what Baxter Springs has long needed, and thank goodness we have that kind, and one which we believe is progressive and alive to the interests of the taxpayers. The mayor is in no sense a dictator, but rather an official who is always anxious and willing to confer with his council on matters of public policy. Again we say, the action of the council in agreeing to back up the "clean-up" policy is very gratifying.

Some time ago an ordinance was passed, which was supposed to compel the building on some sidewalks on Military street. Some of the walks have been put down—some have not. The city council is inclined to enforce the ordinance and will do so. This means simply this: If a walk which is ordered built is not built, the street commissioner will have the work done and the cost, plus fifteen per cent. will be taxed up against the property. It is a money making proposition for the city, and we believe the council has the nerve to enforce the ordinance.
